PROFESSIONAL SUMMARY

People Platforms & Analytics Lead with hands-on experience delivering Jira, SAP SuccessFactors, workflow automation, and full stack solutions. Configured and deployed 22 Jira Service Management projects and 50+ Jira Software projects. Combines JQL, Jira Automation, Google Apps Script, JavaScript, Python, React, Next.js, Node.js, and PostgreSQL to turn complex business processes into reliable systems.

PROFESSIONAL EXPERIENCE

Converge ICT Solutions

Philippines

People Platforms & Analytics Lead

May 2026 – Present

- Lead delivery and continuous improvement of people-platform workflows across Jira and SAP SuccessFactors, translating cross-functional requirements into dependable business solutions.
- Drive workflow automation with JQL, Jira Automation, and Google Apps Script to improve request intake, routing, task delegation, and operational reporting.

People Platforms & Analytics Associate

July 2025 – May 2026

- Configured and deployed 22 Jira Service Management projects and 50+ Jira Software projects covering service workflows, agile boards, custom fields, SLAs, permissions, automation, and reporting.
- Connected Jira with automated tracking mechanisms to streamline cross-functional intake, resource allocation, request routing, and task assignment across People, Finance, and other business teams.

Student Employee, Registrar's Office — San Pedro College of Business

March 2022 – June 2025

Administration

- Maintained confidential student records, processed graduation and CHED-related documents, handled student and faculty inquiries, and supported government reporting.

SELECTED PROJECTS

- **Own Your Career:** Developed an organization-wide OKR grading platform using HTML, CSS, JavaScript, and PostgreSQL; deployed on Converge Cloud.
- **CV Screener:** Built and deployed a Vercel-hosted application that screens and parses resumes to support candidate evaluation.
